### Our Story

At Swings, our food is driven by the seasons, simple and rustic, loaded with delicious flavours. We source local, sustainable produce and have even taken this to the next level by planting a half acre garden at our cellar door. Plantings of onions, garlic, kale, rocket, cauliflower, potatoes, beetroot, cabbage, broccoli, sugar snap peas and every herb under the sun. It really doesn't get any fresher than this.

### Their Story

At Gesha Coffee Co. we source high quality 100% Arabica Beans from the finest origins around the world. We locally roast and package the coffee beans at our warehouse in Fremantle WA, using a combination of modern and traditional processes to guarantee full aroma, flavour and freshness.

1 kg bag of coffee beans available for \$40
